

Madagascar National Parks Proposal Format:

This proposal should be only 2-3 pages in length and accessible to a general scientist (avoid jargon). It will be translated into French for you as part of the MICET facilitation fee.

Research proposal presented by ICTE/Stony Brook, represented by _____ (Name of researcher).

Research Title

Background (Ex: preparation of thesis, PhD...)

Please mention the duration of the research (Ex: 3 year grant), dates of fieldwork

I - Justification for the research

II - Goals, be specific

III - Research description

- * Locality

- *Methodology (should justify the collection, capture, exportation of biological specimens)

- *Duration

- *Activities

- *List of biological materials to be exported (Estimate what you will need to export, e.g. No more than 20 blood samples from *Eulemur fulvus*, or up to 10 representatives of moths in the family XXX. Make this section stand out so that it is easy for someone scanning the proposal to find this list!)

IV - Expected outputs

V - Detailed fieldwork schedule (including dates for handing in of intermediary and final reports)

VI - Participants and their roles

- *Institutions and Malagasy counterparts

- *Participants

VII - Logistics (including research equipment) and miscellaneous

VIII - Source(s) of funding and budget (please be sure to check the ICTE site for current fees/costs)

Appendix: CV of participants (1-2 pages in length)
